Contract Multiple Projects

Group projects together that are to be contracted and completed, within the same region and in the same calendar year.

Coordinate with Multiple Property Managers

Managers that have 1 or 2 similar projects can combine their efforts.

Bid All Projects at the Same Time

Pretty self-explanatory.

Contract with 1 or 2 Contractors

You'll need to have time to complete the jobs over several months in order to ensure that 1 or 2 contractors can complete all the work.

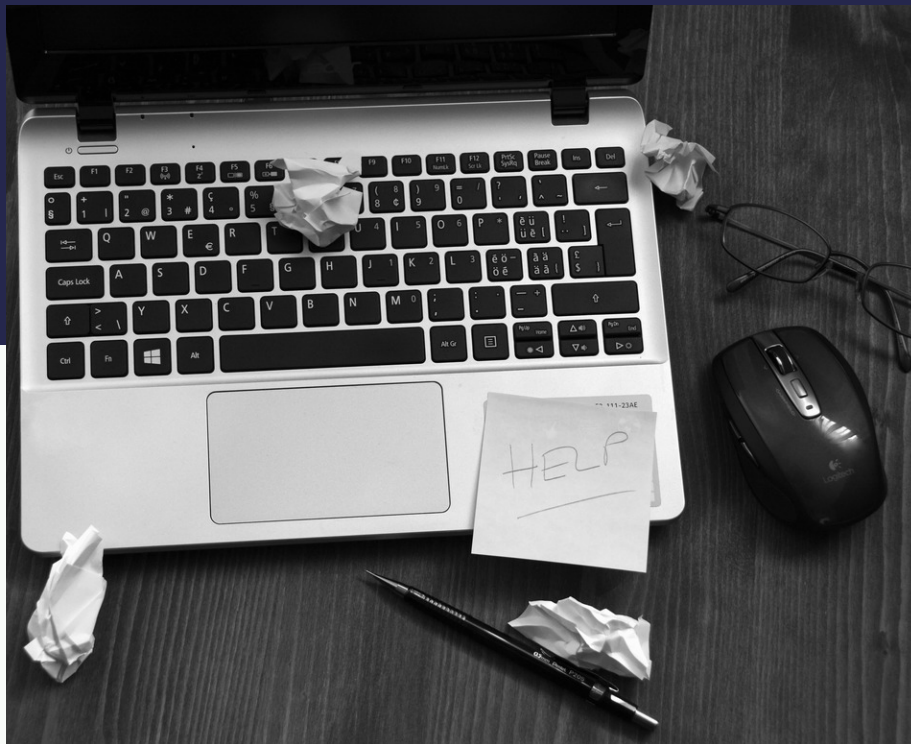

Be Open to New Contractors

Your favorite contractor may not be as competitive or able to pull off multiple projects.
